PRODUCTION

This service ideally starts 4 to 6 months prior to your event date, although we suggest booking up to a year in advance to ensure your date is available.

Our production services (AKA set-up and take-down) are ideal for the couple or event host who already have a complete vision for their wedding or event decor, but require assistance with day-of execution. With this service, clients have the option to provide all of their own decor and customize the level of support needed.

THE PROCESS

1 We'll hold an initial consultation to discuss your vision in detail and help you determine the type of production services that will best suit your event.

2 Once we have an idea of what services are needed, you'll take the lead! However, we're always available to answer any questions you may have along the way.

3 Once your design is finalized, we'll arrange a venue site visit to discuss all the nitty gritty details, including the floor plan, timeline, and plan for execution and/or take-down.

4 Prior to event day, you'll provide us with finalized copies of your floor plan, timeline, a detailed list of decor, along with installation and/or take-down instructions, and we'll take it from there!

This highly customizable service is ideal for clients who have a clear vision of what they want their event aesthetic to look like, but require a little extra support with execution.
